JUSTIFICATION SHEET

DEPARTMENT: Budget and Finance

TITLE: A BILL FOR AN ACT RELATING TO EMPLOYEES' RETIREMENT SYSTEM PERSONNEL.

PURPOSE: To allow the Board of Trustees of the Employees' Retirement System of the State of Hawaii, through its Administrator, to appoint investment officers for the system and to change the title of the "Administrator" of the system to "Executive Director."

MEANS: Add a new section to chapter 88, Hawaii Revised Statutes, and amend sections 88-9(b) and (c), 88-29, 88-90.5(b) and 88-211, Hawaii Revised Statutes.

JUSTIFICATION: Successful investment of the funds of the Employees' Retirement System is one of the foundations to the longevity and stability of the system. The system currently has over eleven billion dollars in domestic and international investments and decisions made by the Board of Trustees of the system concerning these investments are critical to the current and future funding of the system, which has an unfunded actuarial accrued liability of eight billion two million dollars as of June 30, 2011.

Although the members of the Board of Trustees, as fiduciaries, are responsible for the general management of the system's assets and implementation of the system's investment policy, the trustees themselves need not be investment experts. The role of assisting and advising the board with structuring the system's investment portfolio falls primarily with the system's investment staff which currently consists of a Chief Investment Officer and an investment specialist. The current staffing is not

adequate given the uncertainty and complexity of modern financial markets. Furthermore, the current staffing structure is out of line with best practices of other similarly sized public pension plans. The investment portfolio has increased its allocations to equity products, covered calls, real return assets, and private equity. Dedication to these investments requires experience and expertise of seasoned professionals. Investment office staff provides the Board with ongoing tactical and strategic insights into the risk-return trade-offs of multiple asset class investments.

In order to meet its asset goals and reduce the system's unfunded liability, the expanded and complex investment program requires an expanded professional staff to ensure that the investment portfolio is well-researched, monitored and evaluated. This proposal, therefore, allows the Board, through its Executive Director, to appoint exempt, qualified and experienced investment officers to the Employees' Retirement System investment office.

This bill also changes the title of the "Administrator" of the Employees' Retirement System to "Executive Director", to be consistent with the title of the administrative head of other government agencies and other public pension funds.
