
HOUSE RESOLUTION

REQUESTING THE CONVENING OF A TASK FORCE TO INVESTIGATE,
EVALUATE, AND MAKE RECOMMENDATIONS REGARDING THE ISSUE OF
MANAGED SHORELINE RETREAT AND COASTAL LAND ACQUISITION IN
HAWAII.

1 WHEREAS, beaches are central to cultural, recreational, and
2 subsistence practices in Hawaii; and

3
4 WHEREAS, beaches are a key part of the coastal environment,
5 providing essential habitat for many species; and

6
7 WHEREAS, beaches are a major attraction for Hawaii's
8 \$14,400,000,000 visitor economy, and Hawaiian beaches
9 consistently rank among the most popular beach destinations in
10 the world; and

11
12 WHEREAS, healthy beach and dune systems provide natural
13 protection from coastal flooding and property loss during high
14 waves and storms; and

15
16 WHEREAS, Hawaii's beaches are being lost by a process known
17 as coastal erosion or shoreline retreat; and

18
19 WHEREAS, studies by the University of Hawaii and the United
20 States Geological Survey find that seventy percent of beaches
21 have eroded and over thirteen miles of beach have been
22 completely lost to erosion in Hawaii over the past century; and

23
24 WHEREAS, the percentage of beaches eroding and rates of
25 beach erosion will only increase with projected increases in
26 rates of sea level rise; and

27
28 WHEREAS, construction of seawalls and other methods of
29 hardened shoreline protection on eroding beaches are shown to
30 contribute to beach loss in Hawaii; and

31
32 WHEREAS, alternatives to shoreline hardening must be
33 developed and encouraged if we are to conserve our beaches for
34 the next generation; and

WHEREAS, Hawaii is left with a legacy of homes and infrastructure built too close to eroding shorelines due to a historical lack of understanding of shoreline variability and insufficient building setbacks; and

WHEREAS, erosion-rate based setback policies adopted by the State and by Kauai and Maui counties apply only to new construction; and

WHEREAS, some existing infrastructure and homes need to be moved away from highly vulnerable coastal areas through a process known as managed retreat to improve resilience to coastal hazards and preserve beaches, coastal ecosystems, and public shoreline access; and

WHEREAS, acquisition of coastal lands for public conservation or park lands may be a viable and cost-effective alternative for conserving beaches and assisting private landowners and government in conducting managed retreat away from highly vulnerable coastal areas; and

WHEREAS, sufficient funding and agency staffing support do not presently exist for planning for managed coastal retreat and acquisition of coastal lands; and

WHEREAS, development of a coastal lands acquisition program will require close coordination between government agencies, scientists, legal experts, and non-governmental organizations; now, therefore,

BE IT RESOLVED by the House of Representatives of the Twenty-seventh Legislature of the State of Hawaii, Regular Session of 2014, that the Chairperson of the Board of Land and Natural Resources is requested to convene a task force to investigate, evaluate, and make recommendations regarding managed retreat and coastal land acquisition in Hawaii; and
