A BILL FOR AN ACT

RELATING TO UNEMPLOYMENT INSURANCE.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

SECTION 1. The legislature finds that, according to the department of labor and industrial relations, 3,472 initial unemployment claims covering 29,103 weeks claimed were filed in Hawai'i in December of 2020. These figures signify a 176.7 per cent increase from initial unemployment claims filed in December 2019 and a 395.7 per cent increase in the number of weeks claimed filed in December 2019.

The legislature further finds that these substantial increases are largely a result of the COVID-19 pandemic. However, they also reflect a surge in fraudulent claims from cybercrime rings that have targeted the State's unemployment office, which have allegedly stolen millions of dollars from other states' unemployment funds by using stolen identities.

The legislature further finds that the department of labor and industrial relations reported that nearly $16,000,000 in unemployment benefits in Hawai'i may have been lost to fraud and identity theft as of June 2020. Additionally, the department of
labor and industrial relations also reported blocking more than $76,500,000 in possibly fraudulent unemployment claims.

The legislature further finds that it is important to hear from members of the public who have been victims of fraudulent unemployment insurance claims in order to help thwart cybercrime and ensure that out-of-work Hawai‘i residents receive unemployment benefits as quickly as possible.

The legislature further finds that independent oversight of the State's unemployment insurance system is needed to provide clarity regarding unemployment insurance determinations and transparency regarding the internal policies and guidelines of the department of labor and industrial relations.

Accordingly, the purpose of this Act is to establish a Hawai‘i unemployment insurance advisory board independent of the department of labor and industrial relations to be housed under the department of the attorney general.

SECTION 2. The Hawaii Revised Statutes is amended by adding a new chapter to be appropriately designated and to read as follows:

"CHAPTER
